## SYSTEM OF PLAY

### Heat 1

The pairings for the first round have been drawn, see pairings 1st round. After the practise, two LSD (clockwise and counter-clockwise) are played for the right of the last stone.

### Heat 2 to 5

The pairings will be created according to the current overall ranking, with no pairing being played twice. The better ranked team has the right of the last stone.

### Final Heat

All teams play in the final round. The pairings will be made according to the overall ranking after the 5th round. The pairings are rank 1 and 2; 3 and 4; 5 and 6; 7 and 8; 9 and 10; 11 and 12. Pairings from rounds 1 to 5 can be repeated. The better-ranked team has the right of the last stone.

### Ranks 1 to 4 (closed final)

The ranks will be played out, rank 1 and 2 play for the tournament victory, rank 3 and 4 for the 3<sup>rd</sup> and 4<sup>th</sup> place respectively. The points from the tournament do not affect the ranking. If there is a tie after 8 ends, an additional end has to be played. If the extra end ends with zero stones, the team that started the end wins the game.

### Ranks 5 to 12

A draw can be played, there is no additional end. For the final ranking, the results of all six games are included in the evaluation.

### Advertising

The game is played over 8 ends. The team with more stones gets two points, the losing team zero points. In case of a draw, each team gets one point. The rankings are made according to point / end / stone.
